

Due to the corona crisis, your external service temporarily works differently

What does this mean for you?

The coronary measures have been tightened. That is why the medical examinations at the occupational physician or nurse's office will, as far as possible, be conducted by telephone from 23 March onwards. You can still contact our surgery for specific examinations. We observe strict hygienic measures.

Do you have any symptoms of respiratory infection or fever?

Go home immediately and contact your family doctor by telephone.

Is this surgery open?

Go in and you'll be helped.

Is this surgery closed?

Call us on 02 549 71 00. We are happy to help.
